**Xcaliber International expands manufacturing and warehouse space**

December 1, 2016

Pryor, Okla. – Xcaliber International, the leading manufacturer of 4th tier tobacco products, is pleased to announce the completion of a major addition to its manufacturing facility in Pryor, OK. The 50,000 sq. foot addition increases both manufacturing and warehousing space and brings the total site size to approximately 125,000 square feet.

“This addition allows us to improve product material flow, manufacturing flexibility and warehousing efficiency. The acquisition of the Tantus brands in August of this year has further increased our sales growth rate, thus the expansion is very timely to allow us to continue to provide superior quality products with best in class customer service,” said Derrick Taylor, President and CEO.
